DEPARTMENT _____

Re: Oil Spill - 1236 E. Cambridge

This office was notified, by the City Fire Department, that there was a hydraulic fluid spill at 1236 E. Cambridge (10-12-83 4:00 P.M.). J. D. Slaughter and myself checked out the complaint and found 10-15 gallons of hydraulic fluid in the street and along the curb. The fluid came from a Klean Way Disposal truck which broke a hydraulic line. The Street Dept. was notified to have sawdust delivered.
